

The Baird Creek Greenway encompasses over 500 acres along a scenic, wooded stream valley on the east side of the City of Green Bay, Wisconsin. As an irreplaceable community asset, the Greenway provides a natural oasis that is used for many recreational activities including hiking, jogging, bird watching, cross country skiing, and biking. The City of Green Bay is undergoing rapid development on its eastern boundary, creating both opportunities and challenges for Baird Creek. The Greenway is uniquely situated to provide hands-on environmental education and exploration for a rapidly growing population, as well as a passive recreational resource. However, increased foot and bike traffic, storm water runoff, and pressure from invasive species threaten to degrade the ecologically sensitive habitats and stream. In response, the BCPF has initiated an integrated restoration and invasive species management program.

FOUNDATION

# WE'RE HIRING!

## INVASIVE SPECIES INTERNSHIP

The Baird Creek Preservation Foundation (BCPF) seeks two paid seasonal interns (approximately 40 hours per week for 10-12 weeks), starting June 2024, to assist Foundation staff and board members in native plant restoration and invasive species management within the Greenway. Please note that this is a paid summer hire/internship. Salary is \$14.00 per hour.

Specific Intern Tasks can include:

- Removal of Invasive Plants
- Assisting in coordinating/organizing volunteers
- Identifying and cataloging invasive plant areas
- Planting native plant species
- Tree maintenance
- Other tasks as assigned
- Interns may be asked to work with ArcGIS

**CANDIDATES MUST HAVE RELIABLE TRANSPORTATION.**

*HOW TO APPLY: Interested applicants should send their cover letter and resume to [info@bairdcreek.org](mailto:info@bairdcreek.org) by March 19, 2024 and mark submissions as **Invasive Intern 2024**. Thank you!*
